High Production & Deskillizing Sleeve Hemming Workstation

**High performance & de-skillizing sleeve hemming workstation, which had given breakthrough in world's T-shirt manufacturing, is now upgraded with additional features.**

### High Performance

600-700dz. pcs. per 8 hours!

### Deskillizing

Top feeder feeds the work straightforward, and Air guiding hemming folder sets operator free from handing.

Thanks to such features, even a beginner can handle the operation with minimum training period.

### Minimized Downtime

Whole system is controlled by servo motor for easy maintenance.

### Versatility (additional features)

Machine head is equipped with unique "Active Thread Control" for your flexibility for wider variety of sewing conditions.

Re-designed top feed dog for quick & accurate height adjustment according to fabric weight.

### Specifications
